SUPPORTING FRESH, HEALTHY SLEEP

THE
SANCTUARY
COLLECTION

Exclusively at

THE SANCTUARY COLLECTION

with exclusive

Your bedroom should be a sleep **haven** - a place where you can enjoy a blissful, rejuvenating sleep each and every night. This begins with your mattress...

Drift off to sleep in pure relaxation with **The Sanctuary Collection**, utilising Sealy's signature fillings with new innovations, to bring a touch of luxury to your bedroom.

With a fusion of the latest Posturepedic technology, Innergetic Latex[®] and all new Quantum Edge[®], the mattresses in the collection are designed to treat you better than any **spa** experience, ensuring you receive the comfort and support your body needs.

Creating a naturally clean and fresh sleeping environment, Tencel[®] and Purotex[®] fibres are kind to your skin and **senses** for an anti-bacterial and moisture controlling sleep surface.

**Relax in an oasis of luxury and indulgence with
The Sanctuary Collection by Sealy, exclusive to Bensons for Beds.**

SUPPORTING your body, Sealy's unique **Quantum Edge®** pocket springs are individually encased and have multiple zones to provide a tailored sleep surface that is just right for you. Each spring independently responds to your body to provide support where you need it the most.

FRESH and inherently breathable, **Innergetic Latex®** delivers a clean and cool sleeping environment. Latex reacts to your natural shape to provide pressure relief and 'bounce back' to ensure you achieve the most refreshing and energising nights sleep.

HEALTHY and hygienic, **Purotex®** incorporated into the knitted cover is anti-bacterial and a proactive bed cleaner. Combined with **Tencel®**, which derives from the eucalyptus tree, these natural elements work to keep you cool and moisture free throughout the night.

SLEEP - and a great one at that, is just what we all want and need. **The Sanctuary Collection** is designed with that in mind, supporting a fresh, healthy sleep.

QUANTUM EDGE

STEEL PERIMETER

NEW INNOVATION

What is Quantum Edge?

Sealy is renowned for innovation, bringing a dynamic edge support to Bensons for Beds. Quantum Edge® is more resilient than foam to offer greater comfort, reduce the roll-off feeling and provide a consistent level of support across the entire sleep surface.

Quantum Edge®
pocket springs

Pre-compressed head and
foot zone pocket springs

How can this technology benefit you?

- The pocket springs are held under tension to make the mattress more responsive to body movements, conforming to your individual contours for superior comfort and reduced partner disturbance.
- The individual pocket springs hold their shape for zoned support and a durable sleep surface.
- Reinforced springs at the outer edges of the unit provides a better edge than foam to reduce or eliminate that roll-off feeling.

Sealy

with exclusive

Innergetic Latex® responds to your body to provide pressure relief for exceptional comfort and bounce back for a refreshing night's sleep.

Nestled in the fabric of the sleep surface, **Tencel®** is an eco-friendly fibre which is caring and attentive to your skin's needs. The breathable nature of the fibre helps your body to reach the optimal skin climate to prevent overheating.

Purotex® is an active bed cleaner and high performing odour neutralizer, combatting allergens and extending the lifespan of your mattress.

Haven in Dawn with Accord Headboard

HAVEN

Relax and unwind with the Sealy Haven mattress each and every night.

Featuring **1500** individually responsive pocket springs, the sleep surface responds to your shape to target the areas of your body where support is needed. Combined with Quantum Edge® the mattress delivers a consistent level of support across the entire surface, eliminating the risk of roll-off and maximising comfort for a rejuvenating sleep. Latex reacts effortlessly to your body's contours, providing even pressure distribution and regenerating comfort throughout the night. The beautifully hand tufted mattress, features cutting-edge technology in the fabric to ensure a cool, clean and fresh sleeping environment.
