Posturepedic®

# It's a first class feeling

## THE SEALY POSTUREPEDIC DIFFERENCE

A Sealy Posturepedic mattress offers a support system that's unique from top to toe, for a sleep that's best in class.

We truly believe that this is the only mattress that delivers genuine support that everyone can feel and the true comfort that everyone deserves. And every Sealy Posturepedic mattress is made to be trustworthy, resilient and durable - night after night...year after restful year.

## THE BEST SLEEP IS A SEALY POSTUREPEDIC SLEEP

To provide the best support, your mattress should allow your spine to maintain it's neutral posture whilst you sleep, reducing muscular tension and strain. Sealy Posturepedic works to provide correct support by aligning the body position during rest.

exclusively for **bensons**

Posturepedic®

# Designed alongside orthopaedic surgeons

To provide the best support, your mattress should allow your spine to maintain its neutral posture whilst you sleep, reducing muscular tension and strain. Sealy Posturepedic's AlignSupport® Spring system works to provide correct support by aligning the body position during rest.

## Two-stage spring system

A sense and respond spring system which first senses your body, and then responds with the correct level of deep-down support you can feel.

## Delivering Correct Support

AlignSupport® Coil works to provide correct support whilst you rest - keeping your spine in a neutral posture.

## Unique Sealy technology

Patented spring system, unique to Sealy which has been developed with the Orthopaedic Advisory Board.

## Twice-tempered

Sealy's spring systems are twice-tempered, to provide durability you can depend on.

We work with the International Orthopaedic Advisory Board to inform our product development. The board is made up of Orthopaedic surgeons, bio-mechanical engineers & medical scientists.

**Orthopaedic  
Advisory  
Board**

# Our Technology

IT ALL STARTS WITH OUR ALIGNSUPPORT® SPRING

Everything Sealy does is rooted in the carefully crafted, and honed legacy of a spring system that is truly unique. It's unique geometry first senses your body as it meets the mattress, it then follows up with deep down, consistent support that you can count on year after restful year.

# Our Technology

## MUCH MORE THAN JUST EDGE SUPPORT

UniCased® and UniCased® XT brings structure to every point in the mattress, extending the sleep area and preventing the roll-off feeling.

Paired with BasePlank, an integral foundation that underpins the entire mattress and works with the AlignSupport® Coil to provide support and stability.

## WE'VE THOUGHT ABOUT COMFORT TOO

When it comes to comfort, we believe that one single approach is not just enough.

We call it Comfort Architecture. Our bespoke palette of comfort materials and textiles are carefully constructed inside the mattress to provide the unique Sealy Posturepedic mattress feel.

## AND THAT'S NOT ALL...

SmarTex® fabric draws away moisture to keep you cool and regulate your sleep climate.

ProShield® treatment keeps allergens at bay and offers a clean and fresh night's sleep.

# Our Mattresses

Medium

# Orwell Medium

The Orwell sits proudly at the top of the Sealy Posturepedic collection, offering a first class feeling night after night.

## Mattress Features

## Sealy - it's where sleep matters

Where sleep is not just "something we all do", or "time spent in bed" but more of a question of when, where, why and how we can all sleep better... That's why we are the World's No 1 Sleep Brand.
